

## Vee Technologies in Inc. 5000 list for the third time

Vee Technologies, a healthcare revenue cycle and business services firm, is an Inc. 5000 company three times in a row.

NEW YORK, NY, USA, August 18, 2017 /EINPresswire.com/ -- The healthcare revenue cycle and business services firm scores more banner results.

Inc. Media awarded Vee Technologies another year on the Inc. 5000 list of the fastest growing private American corporations.

- With each year and a larger base of clients and revenue it becomes harder to maintain membership in this exclusive club. A mere one in five companies on the list has made it three times.

“We’re proud to lead the healthcare industry in solving revenue cycle efficiency problems,” said Patrick O’Malley, President of Vee Technologies, Inc. “Clients have leveraged their increased profitability for quality patient care and promoted our contributions with new clients.”

The Vee Technologies team helps hospital networks, physician groups, and insurers improve their net patient revenue and reduce overhead through high-quality, low-cost medical coding and revenue cycle outsourcing. Since 2010, they’ve specialized in efficient solutions for maximizing net patient revenue and accurately documenting value-based care.
